Please replace the paragraph beginning at page 1,  
line 1, with the following title and rewritten paragraph:

FIELD OF THE INVENTION

C<sup>2</sup> The present invention relates in general to wireless communication systems, such as but not limited to cellular communication systems, and is particularly directed to a scheme for increasing the capacity of broadband base station without a significant increase in hardware, by combining a set of wideband digital radios with a phased array antenna to provide higher channel reuse and higher trunking efficiency.
